

DV Soft School ERP

The school office, without the paperwork

One system for the whole school office: admissions, attendance, fees, exams, staff and every conversation with parents, in 31 modules under one sign-in. Each school gets its own database, and parents get a portal that shows only their own children.

The screenshot displays the DV Soft School ERP interface. The main window shows the 'Students' module with a search bar and filters for Class and Section. Below the filters is a table of students with columns for Admission #, Name, Class, Roll, Guardian, Phone, and Status. A sidebar on the left lists various modules like Dashboard, PEOPLE, Students, Teachers, ACADEMICS, CAMPUS, FRONT OFFICE, STUDENT RECORDS, STAFF, FINANCE, and SYSTEM. A mobile view overlay shows the 'Fees' module with a 'Fee Management' section, displaying collected, outstanding, and overdue fees, and a table of student fees.

Admission #	Name	Class	Roll	Guardian	Phone	Status
2026-0001	Aarav Sharma	1st - A	12	Rohit Sharma	+91 90000 00001	Active
2026-0002	Diya Patel	1st - B	07	Neha Patel	+91 90000 00002	Active

OVERVIEW

The school office, **without the paperwork**

DV Soft School ERP brings the parts of a school that usually live in separate registers, spreadsheets and cupboards into one system with one sign-in. Students, teachers, classes, sections and subjects sit at the centre, and a student admitted once is the same student in attendance, fees, exams and the parent portal. Around them are 31 modules covering academics, finance, staff, campus, the front office and student records.

The working day gets shorter. Teachers mark a class register on one screen and enter marks for a whole class once, and report cards follow. The office raises fee invoices, records payments by cash, UPI, card, bank transfer or cheque, and always has a current list of who owes what. Six print-ready reports answer what the principal and the board ask for: fee defaulters, fee collection, income against expense, attendance, exam performance and student strength.

Parents sign in to see attendance, results, homework, the timetable, fees and notices for their own children, on any phone, with nothing to install. The school works in its own currency, timezone and date format. Every school on the cloud gets a database of its own, passwords are stored hashed, an activity log records who changed what, and the school can take and download its own backups.

WHO IT IS FOR

Principals and school leadership

Today's attendance, fees collected, outstanding and overdue, and reports on student strength, exam results and income against expense, without asking the office.

The office and accounts

Admissions, fee invoices and payments, an always-current defaulters list, expenses, payroll, and the enquiries, visitors, calls, post and complaints that reach the front desk.

Teachers

Take a class register on one screen, enter marks once for report cards, and set homework that parents can see that evening.

Parents and guardians

Attendance, results, fees, homework, the timetable and notices for their own children, on the phone they already have, with one sign-in for all their children.

Student	Class	Fee	Amount	Due Date	Status	Actions
Arjun Rao (2024-0005)	3rd	Term 2 Tuition	₹5,000.00	23 Oct 2026	Unpaid	Cash 557%
Ishita Rao (2024-0006)	3rd	Term 1 Tuition	₹10,000.00	23 Oct 2026	Paid - 18 Oct	
Ishita Rao (2024-0006)	3rd	Annual Charges	₹10,000.00	23 Oct 2026	Paid - 18 Oct	

Fees collected, outstanding and overdue

KEY FEATURES

Built for the way **you actually work.**

01 A parent portal in every plan

Each guardian signs in and sees only their own children: attendance, results, homework, the timetable, fees and notices, with a switcher for families with more than one child at the school.

02 Attendance in a minute

Mark a class present, absent, late or on leave with bulk buttons, and the monthly report works out each student's percentage. Staff attendance is kept the same way.

03 Fees with an always-current overdue list

Invoices per student, payments recorded by cash, UPI, card, bank transfer or cheque, and collected, outstanding and overdue totals. The fee defaulters report names the guardian to call.

04 Marks once, report cards follow

Set up exam terms, enter marks for a class and subject on one screen, and print report cards with grades. The exam performance report shows class averages, pass rates and best scores.

05 Bring your spreadsheet

Admit a class or the whole school from an Excel or CSV file. Every row is checked first, problems are explained by row, and only the rows you confirm are admitted.

06 Your currency, timezone and dates

Fees, payroll and reports in the currency your school charges in, attendance on your local clock, and imported dates read day-first, month-first or year-first as your school writes them.

07 Email to families when it matters

Families can be emailed when their child is marked absent, when a fee falls due or goes overdue, and when a notice is published. Each switch stays off until the school turns it on.

08 A database of your own

Every school on the cloud gets its own database, roles decide what each account can open, passwords are stored hashed, an activity log records every change, and you take and download your own backups.

MODULES

Everything in **one system.**

■ People

Students with automatic admission numbers, bulk import and end-of-year promotion, plus teachers, classes, sections and subjects.

■ Academics

Attendance, a weekly timetable per class and section, homework with due dates, exams, marks and printable report cards.

■ Finance

Fee invoices and payments, school expenses by category and month, and income against expense.

■ Staff

Staff attendance with a monthly report, leave requests with approval, and monthly payroll records.

■ Campus

Library issues and returns with overdue flags, transport routes with vehicles, drivers and riders, hostel rooms and occupancy, and inventory.

■ Notices and events

A noticeboard addressed to everyone, students, teachers or staff, and a school calendar of events and holidays.

■ Front office

Admission enquiries, the visitor book, the phone call log, the postal register and complaints.

■ Records

Bonafide, transfer and character certificates with automatic numbers, student documents and health records.

QUESTIONS BUYERS ASK

How much does it cost?

There are three plans, sized by the number of students: Starter for up to 300, Standard for up to 1,000 and Complete for unlimited students. Prices are quoted in writing for your school, in your currency, and every plan starts with two months free.

Can we bring our existing student list?

Yes. Upload an Excel or CSV file with the usual headings such as Student Name or Date of Birth. Every row is checked, problems are shown by row number, and nothing is saved until you confirm.

Do parents need to install an app?

No. The parent portal runs in the browser on any phone or computer. Each parent sees only their own children, and the office can still print receipts and report cards for families who prefer paper.

PLANS & GETTING STARTED

Choose a plan. **We set it up for you.**

Starter

For a single school finding its feet. Up to 300 students.

On request

Quoted for your size

- ✓ Up to 300 students
- ✓ Students, staff and classes
- ✓ Attendance and timetable
- ✓ Fees, exams, marks and report cards

Complete

Unlimited, with the vendor close at hand.

On request

Quoted for your size

- ✓ Everything in Standard
- ✓ Unlimited students
- ✓ Scheduled backups
- ✓ White-label branding
- ✓ Named support contact
- ✓ Starts with two months free

Your product is ready within 6 to 24 hours of payment.

1

Book a demo

Watch an ordinary school day on screen, from admission and attendance to a fee payment and a report card, and tell us which jobs take your office the most time.

2

A dedicated DV Soft team sets up your school

Your own web address and database, your school name, logo, currency and timezone, your classes and subjects, and your students imported from the Excel or CSV file you already keep.

3

Training for every role

The office learns admissions and fees, teachers learn attendance, homework and marks, and the administrator learns users, settings and backups.

4

Go live, with 24/7 support

Start with the jobs that matter most and add the rest as the office is ready, with the DV Soft team on call around the clock.

**A dedicated team**

One team from the first call to go-live and beyond.

**Live in 6 to 24 hours**

Set up for you after payment, with your data moved in.

**Training included**

Hands-on sessions for every role until staff are confident.

**24/7 support**

Phone and WhatsApp, during and after go-live.
